Publications

Jul 2021 Sharma, B., Bansal, P., Chugh, M., **Chauhan, A.**, Anand, P., Hua, Q., & Jain, A. (2021). Benchmarking geospatial database on Kubernetes cluster. EURASIP Journal on Advances in Signal Processing, 2021(1), 1-29. *Springer*

Experience

Big Data Engineer (Business Technology Solutions Associate)

New Delhi, India

ZS, FULL-TIME

Aug 2021 - Present

- Developing and delivering data warehousing solutions using AWS EMR, Apache Spark for analyzing and interpreting real world data to empower a successful venture.

Software Development Engineer

Bangalore, India (Remote)

TRIVEOUS TECHNOLOGIES PRIVATE LIMITED, INTERNSHIP

May 2020 - Sept. 2020

- Implemented multiple event-driven API microservices in Node.js NestJS and managed their deployments on AWS ECS.
- Built a scalable notification delivery system using Redis, FCM, AWS SNS, SES and SQS.
- Spin up a cost-effective, automated GitLab Runner setup on AWS that scales in/out on demand and also offers the possibility to switch off the entire stack at predefined time intervals to save costs.
- Implemented an image-caching service supporting on-demand crop, resizing and flipping of images while serving.
- Built an automated status-page for multiple services using Atlassian Statuspage, AWS Cloudwatch Events and Lambda.

Technical Mentor

New Delhi, India

SOLVE FOUNDATION (INTELLIFY/INDIAN ROAD SAFETY CAMPAIGN), FULL-TIME

Jan. 2020 - Mar. 2020

- Mentored development of online web-portal and mobile application for National Science and Creativity Program (NSCP).
- Assisted the team in the design, implementation and debugging processes in all aspects of front-end, back-end, APIs, android or deployments.
- Designed a development methodology to smoothen the development-process of Intellify making it more efficient and trackable.
- Managed the complete source-code version-control for proper code reviews and merges of any fixes, updates and features.
- Setup analytics for tracking and reporting NSCP website traffic that provided in-depth detail about visitors on the website.

Python & Web Developer

New Delhi, India

INTELLIFY, INTERNSHIP

May 2019 - Jul. 2019

- Designed and developed an user-based collaborative-filtering online quiz-recommendation system for The International Science and Creativity Olympiad (ISCO).
- Implemented REST API using Python for compiling, analysing and presenting the results of students and schools for all rounds in ISCO.
- Designed and implemented front-end web-pages for Intellify website and exam portal using Bootstrap framework.

Software Development Engineer

Noida, India (Remote)

BYTESCARE, INTERNSHIP

Mar. 2019 - Aug. 2019

- Automated the process of privacy data collection and take-down procedures for content creators.
- Built a mail-caching, monitoring and processing system as REST API using Node.js, that processes all emails for a take-down request, applying NLP algorithm implemented using Python and Natural Language Toolkit (NLTK).
- The NLP algorithm along with other modules is used to classify the type of response for a take-down request email and monitor the mail conversation for every request.
- The algorithm for language processing is similar to sentiment-analysis but is customized to work with emails and uses a corpus of approximately 1,00,000 formal/informal and positive/negative responses.

Education

Bachelor of Technology in Computer Science and Engineering (B.Tech CSE)

New Delhi, India

GURU GOBIND SINGH INDRAPRASTHA UNIVERSITY, MAHARAJA SURAJMAL INSTITUTE OF TECHNOLOGY, CGPA: 9.453/10

Aug. 2017 - Jul 2021

Senior Secondary

Madhya Pradesh, India

CENTRAL BOARD OF SECONDARY EDUCATION, KENDRIYA VIDYALAYA PACHMARHI, PERCENTAGE: 88.4, STREAM: SCIENCE

Aug. 2015 - May 2016

High School

Assam, India

CENTRAL BOARD OF SECONDARY EDUCATION, ARMY PUBLIC SCHOOL TEZPUR, CGPA: 9.8/10

Aug. 2013 - May 2014

Achievements & Certifications

Dec 2021	Analyzing Big Data with SQL , certification focusing on architecture & usage of big data distributed SQL engines like Apache Hive.	Online
Aug 2020	Google IT Automation Professional Certificate , certified in automating system administration tasks and applying automation at scale by implementing configuration management using Python.	Online
Jun 2020	AWS Specialization , on essential and core services, key security concepts and handling serverless applications.	Online
Mar 2020	100 Percentile , in Computer Science module of Aspiring Minds Computer Adaptive Test (AMCAT).	New Delhi, India
Jan 2020	First Position , 2018-19 academic session, B.Tech CSE - Maharaja Surajmal Institute of Technology.	New Delhi, India
Sep 2019	First Runner Up , Infosys Digital Makeathon 2.0 Chandigarh DC.	Chandigarh, India
Apr 2019	Elite Certification , Ranked in top 5% toppers in the certification exam for Data Structures and Algorithm using Python by National Programme on Technology Enhanced Learning (NPTEL).	New Delhi, India

Projects

Continuous Improvement

ANSIBLE, KUBERNETES, AWS, TRAVIS, KONG, DOCKER, NODEJS, TYPESCRIPT, POSTGRESQL

Summer 2020

- Highlighted key concepts to scale, synchronize and secure event-driven microservices architecture.
- Provisioned an easily manageable infrastructure for event-driven microservices architecture utilizing IaC (Infrastructure as Code).
- Built fully-automated CI/CD pipelines for containerized microservices using Docker, Ansible, and Travis deploying microservices on Kubernetes.
- Extended the Kubernetes Ingress API using Kong Ingress Custom Resource to implement gateway level security for securing APIs across the Kubernetes cluster.

F.R.I.D.A.Y

PYTHON, NATURAL LANGUAGE PROCESSING, AIML, SPEECH-TO-TEXT, TEXT-TO-SPEECH

Fall 2019

- Inspired from MCU, Female Replacement Intelligent Digital Assistant Youth (F.R.I.D.A.Y) is designed as a personal assistant.
- Capable of performing system-level tasks like reporting system information, memory utilization, performance statistics, send system into hibernate/shutdown/sleep mode, taking screenshots on screen, answer what's near-me queries, provides live weather information on users current location.
- Understands text as well as speech inputs.

Skills

Programming Languages	Python, TypeScript, Javascript, C++, C, JAVA, Assembly
Domain Specific Languages	SQL, Shell, Cipher, GraphQL, Latex, HTML
Frameworks	Flask, Django, ExpressJS, NestJS, JUnit, PyTest, Electron, Bootstrap
Development Tools	Docker, PySpark, Kubernetes, Ansible, Nginx, Jenkins, Travis CI, Node.js, Redis, Firebase, Elasticsearch, Scikit-Learn, Tensorflow, OpenCV
Version Control	Git, GitHub, GitLab
Database	PostgreSQL, Neo4j, Amazon DynamoDB, MongoDB
Operating Systems	Linux, Windows
Cloud Technologies	AWS, Heroku, GCP
Search Engine Optimization	Google Analytics, Google Search Console, Google Page Speed Insights, Lighthouse
Languages	English, Hindi, French
